**COMMERCIAL GIS FEE GUIDELINES\***

***BASIC GIS MAPS AND PRODUCTS***

1. **Standard Topographic Map: (24 x 36 sheet in hard copy form containing all base layers; price per sheet)**

\$25.00/Standard Map  
Mylar prints (where available) at higher rates.

**Map Size Variations (pre-made prints in hard copy format):**

|         |         |
|---------|---------|
| 8½ x 11 | \$2.50  |
| 8½ x 14 | \$5.00  |
| 11 x 17 | \$7.50  |
| 17 x 22 | \$10.00 |
| 22 x 34 | \$20.00 |
| 34 x 40 | \$25.00 |

**Additional Layers:**

Layers of coverage will vary, as they are dependent on how involved the GIS program is to the area. The need for (and types) of layers will increase with the size and urbanization of the area. The more advanced programs with detailed layers will be more expensive since the start-up costs for them will be higher. Therefore, there is no fair way to establish a uniform set of prices for layer across the state. Each PVA office using GIS will have to determine their own layering schedules based on the amount of money invested into their program.

2. **Topographic Data/Land & Structure Characteristics (in digital electronic data format):**

\$25.00 PER REQUEST PLUS:

|   |                        |
|---|------------------------|
| No Data (shape file only)   | \$0.20 (per parcel)    |
| Individual or Custom Parcel Data<br>With ownership and addresses only | \$0.30 (per parcel)    |
| Building/Land Characteristics   | \$0.50 (per structure) |

3. **Aerial Photography:**

As a point of clarification, DOQQ's or aerial photos provided by the Department of Geographical Information (DGI) cannot be sold by PVA offices. For purchase of DOQQ's, contact DGI, (502) 573-1450. Flight patterns flown by and paid for by the county are okay for resale.
