

Mill Rates and Tax Bills

Taxes are assessed as of October 1st. They are levied (or collected) on the following July 1st
Taxes are based on the assessed value of property multiplied by the current mill rate.

One mill is equal to \$1.00 of tax for each \$1,000 of assessment.

Example: Assessed value: \$200,000

Mill rate: 34.15 mills (.03415)

\$200,000 x .03415 = \$6,830
