1. Start with less search criteria to widen the search results.
2. Leave out street suffixes (st, road, etc.) to widen the search results.
3. Add more search criteria to narrow the search results.
4. If the address number has a "0" after the dash, the results may show if the "0" is deleted.
   Example: For a street number of "98-023", try inputting "98-23".
